PROFESSIONAL SUMMARY

QA Automation Engineer with 2.5 years of experience in UI, API, and database testing for enterprise web applications. Hands-on experience building and maintaining Selenium WebDriver automation frameworks using Java, TestNG, Page Object Model (POM), and Hybrid Framework architecture, with additional Playwright cross-browser testing exposure. Skilled in REST Assured, Postman, SQL-based backend validation, CI/CD integration, defect tracking, and Agile/Scrum delivery.

TECHNICAL SKILLS

UI Automation: Selenium WebDriver, Playwright, TestNG, JUnit, Page Object Model (POM), Hybrid Framework, Cross-browser Testing
API Testing: REST Assured, Postman, REST API Automation, JSON Schema Validation, API Smoke Testing, Response and Error-handling Validation
Programming & Database: Java, Python, SQL, MySQL, Oracle
Testing: Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, End-to-End Testing, Manual Testing
CI/CD & Tools: Jenkins, GitHub Actions, Git, GitHub, Docker Basics, Jira, Extent Reports
Process & Practices: Agile/Scrum, SDLC, STLC, Defect Lifecycle, Test Data Management, BDD Fundamentals

PROFESSIONAL EXPERIENCE

Associate Software Engineer – QA Automation | Jun 2024 – Present

Accenture | Pune, India

- Designed and maintained an end-to-end automation framework using Selenium WebDriver, Java, and TestNG with POM and Hybrid Frameworkarchitecture to support repeatable regression execution.
- Extended UI test coverage using Playwright for cross-browser testing across Chrome, Firefox, and Edge.
- Created API automation checks using REST Assured and Postman to validate endpoints, response schemas, and error handling.
- Performed backend validation using MySQL and Oracle SQL queries to verify data integrity across cloud-hosted and on-premises environments.
- Tracked defects and QA metrics in Jira, including test coverage, defect density, and pass/fail ratios.
- Collaborated with Development, Business Analyst, and Infrastructure teams in Agile/Scrum ceremonies, including sprint planning, backlog grooming, andretrospectives.

Martian Summer Intern | Jun 2023 – Aug 2023

Persistent Systems | Pune, India

- Gained hands-on experience in Java, SQL, Linux, backend fundamentals, and test data management.
- Designed, built, and tested Java-based REST API modules in a simulated Agile environment.
- Assisted with test-case writing and manual testing cycles for web application features.
- Practiced data structures, algorithms, and scripting fundamentals.

PROJECTS

Telecom Consumer Billing & eSIM Management System

Technology Stack: *Selenium WebDriver, Playwright, REST Assured, JMeter, Jenkins, GitHub Actions, Java, MySQL, Postman*

- Worked on UI, API, and database testing for telecom billing, subscription management, and eSIM provisioning workflows.
- Validated subscriber provisioning, digital activation, billing workflows, and service behavior using UI checks, REST assertions, and SQL backendvalidation.
- Supported UI regression testing and API smoke testing for cloud-hosted and on-premises environments.
- Contributed to automation-suite maintenance and CI/CD-based scheduled and continuous test execution.

API Automation Framework — Internal Tool

Technology Stack: *REST Assured, Java, TestNG, JSON, GitHub Actions, Extent Reports*

- Designed a reusable REST API automation framework with dynamic request builders and JSON schema validation.
- Integrated API regression execution into GitHub Actions to run on merges to the main branch.
- Added HTML test reporting using Extent Reports and documented test strategy, coverage mapping, and stakeholder reporting.

CERTIFICATIONS

- GitHub Copilot Certification — Microsoft
- Playwright JS/TS Automation Testing — From Scratch & Framework

EDUCATION

B.Tech, Computer Engineering | Jul 2021 – Jul 2024 | CGPA: 8.63
Pimpri Chinchwad College of Engineering, Pune

Diploma, Information Technology | Jan 2018 – Jun 2021 | Percentage: 97.13%
Puranmal Lahoti Government Polytechnic, Latur
